NOTE 13. MUNICIPAL EMPLOYEES RETIREMENT PLANS (Continued)

A. GENERAL EMPLOYEES' RETIREMENT PLAN (GERP) (Continued)

***Investments** (Continued)*

The following table summarizes investments that use NAV per share to value investments, including unfunded commitments and restrictions:

		Net Asset Value Measurement at Reporting Date			
Investments Type		Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Hedge Funds	(1)	$ 298,280	$ -	N/A	N/A
Limited Partnerships	(2)	$ 5,388,431	$ 1,086,486	N/A	N/A

(1) Investments in private investment companies (the "investee funds"), are valued, as a practical expedient, utilizing the net asset valuations provided by the underlying investee fund without adjustment, when the net asset valuations of the investments are calculated (or adjusted by the fund if necessary) in a manner consistent with GAAP for investment companies. The fund applies the practical expedient to its investments in investee funds on an investment-by-investment basis, and consistently with the fund's entire position in a particular investment, unless it is probable that the fund will sell a portion of an investment at an amount different from the net asset valuation. If it is probable that the fund will sell an investment at an amount different from the net asset valuation or in other situations where the practical expedient is not available, the fund considers other factors in addition to the net asset valuation, such as features of the investment, including subscription and redemption rights, expected discounted cash flows, transactions in secondary markets, bids received from potential buyers, and overall market conditions in its determination of fair value.

The underlying investee funds value securities and other financial instruments on a mark-to-market or other estimated fair value basis. The estimated fair values of substantially all of the investments of the underlying investee funds, which may include securities for which prices are not readily available, are determined by the general partner or management of the respective underlying investee funds and may not reflect amounts that could be realized upon immediate sale, nor amounts that ultimately may be realized. Accordingly, the estimated fair value may differ from the values that would have been used had a ready market existed for these investments.

(2) Portfolio Advisors Private Equity Fund IX, L.P. (the "Domestic Fund") and Portfolio Advisors Private Equity Fund IX (Offshore), L.P. (the "Offshore Fund") seek to offer their investors participation in high quality private equity funds and co-investments managed by leading private equity fund managers. The terms of the Domestic Fund and the Offshore Fund are generally the same, except where noted, and references to the "Fund" in this Confidential Private Placement Memorandum (the "Memorandum") should be understood as referring to the terms of, or other disclosures that relate to, each of the Domestic Fund, the Offshore Fund and Portfolio Advisors
